

Knowledge and Money

Knowledge

- Knowledge is the awareness of a fact or a situation. It is a rich and a unique possession that cannot be stolen or plundered. Knowledge doesn't decrease when it is given. In fact, knowledge is power. Those who have a wide-range of knowledge and experience can capture power and influence. The possession of knowledge gives them a distinct advantage over the semi educated people.
- Education is more important without education, you are nothing. Education is where it all begins. It's where you learn your inner talents, it's the creativity that flows from you. You cannot do anything without education. When the nation gives more importance to the education it progress well otherwise it loses its progress and eventually the money and related positions
- Knowledge is power suppose we going to hit by an asteroid, money cannot help us from the danger. But it is our knowledge that predicts us from danger. Many children go to work because of gaze to money. They do not understand that education can bring them more sum of money than they get. It is the knowledge that has invented a computer not money.
- We remember those who contributed their knowledge to the world, based on which new inventions and discoveries are being made. We always remember those person. Most fields want people who are smart, independent and bring out ideas with the knowledge they have gained in their younger ages.

- Knowledge forming an integral part of a person, there is no reason to worry about any security issues. Knowledge gives self-reliance and self-belief.

Money

- Every human needs food, requires shelter, clothing etc. Each person must earn in order to fulfil their necessities. Freedom from insecurity by physical treasure (money), protecting it is an issue.
- Many young people marry for money rather than love. Materialism influences education, too. Students acquire knowledge not for its own sake, but for a bigger wage.
- Students choose business courses rather than liberal arts for the sake of earning big money in the future.
- Everything in modern society is based on money. As the saying goes, money makes the world go around. Security is more important than happiness.
- Wealthy nations can succeed by offering their poorer talented neighbors bigger salaries. People are trained to be acquisitive from an early age and are not considered successful unless they make good money.
