

**I want you to action**

**I don't want you to action**

**My father wants me to action**

**He doesn't want me to act**

**Don't you want him to action**

**I want you to be.....**

**Settle your life**

There is no way you can stop me

**Waste your time**

I don't need you to stay here

**Be a singer**

Is this way to talk to your father?

**Involve in politics**

I'm old enough to make my own decision

**Get married**

I don't want you to stay here anymore

I can't give you enough rope to hang yourself

No boy your age talks to his father this way

Who needs your money? Who wants to stay here?

Clash between thought

I am not a five year old kid

You can't have it both ways

I was not born yesterday

Don't play with my emotion

I will do it my way
